I + was me, I've forgotten his name till you mentioned it.

I discussed it 1st June this year with Pat. I discussed it w/a friend this year 1st June. I'd discussed it w/some of my women friends. I think I probably never told Kobun.

"It was that period of time when people didn't speak out so much." - friend

I've worked w/rape victims a lot. Always question about victim being to blame. Sometimes better judgement would help. Must have been a shame factor.

"I think that there's a tendency to smooth over any disharmony. It's not like there's a big conspiracy to suppress. A Chinese friend of mine was swindled for 5,6 k and he said he just let it go. He said he didn't want to involve himself in that kind of thing. Kobun used to do that too. We'd call it being a doormat. Kobun said I had damage on job and he said just pay. They don't like fighting."

Me - worse than that
Bany want dealt w/ and she evasnt.

H - I agree but not a plot to protect corporate structure.

I didn't feel like I was threatened or that I'd be physically
hurt. Much worse things w/ Kobun. The drama
comes from fear, when Kobun + I together went
to Corib island to meet w/ kids. All of a sudden
door opened man in black ski mask - all black
we lived on edge of jungle + Roseferns lived there.
Dominique between Guadeloupe + Martinique - the
man said "I want the nurse" "I'd come to
take the nurse." "I stood up + said, "we don't
want any problems." Chabbed daughter &
jumped out window. Kobun said, "fardoy me, what
did you say?" "He didn't do anything. That's what
ended marriage. I ran \$500 to hospital.
Lost 15 lbs in 2 weeks. We were the only non blacks in
that town. I was terrified for 2 weeks. The next day Kobun
& I stayed in bed all day announced he quit smoking. I went
to Chief of police of whole island, Lt. O'Brien - 3 big guys with
guns + \$500 + many decorations. I explained + asked permit
forgiveness. They said go get it but couldn't beg. I made friends
w/ Karate students.

I tell her yo - she says maybe he told someone
yo - can't remember - I don't remember telling
anyone. yo + I not close. Maybe I told
someone. I want living at Tass. I don't think
I even told my French companion.

63 Merc Medical dict rape def -
because of woman's behavior

D - What happened w/ you + Ben
- I can't tell if he got bigger issues - solitaire
from D

I couldn't go downstream by myself -
He approached me about going on with
Great - He wasn't someone I was
interested in. Coming back upstream
he raped me. NO foreplay. I didn't
fight. There was no words & stuff.
Sus + Coitus. All over real quick.

I didn't like it ~~but I did~~ and I sure
wasn't around him but I wasn't
~~very~~ dramatized. It wasn't pleasant.

Everything that's happened to me since then
I just march on through life. It almost
doesn't matter what happens to me. I go on.

Problems with parents dying
my mother dying of cancer
Always had people
to take care of
whether a death of
father, death of
of marriage
or when I was
a child taking care
of her. I got
gone - I just
kept going
I got it from
my father. It
frustrated in work
that was on some
level, that's how
it - I shared it
under my.
It wasn't sex but
an urge of power
+ control. It was
hybrid and will
give up control
