after how [Tony Palmer] kinda fuzzy

Longy tells this after John reunited
him - says he thought about it
and remembered it this way - DC

SR ↓ took Loung + John
asleep after 2:00
65 of them
asked me
what is it with
all these hypnos
why so many
coming here after
taking LSD?
what are they
interested in?
What can you tell
me about this?
I said I can't really
tell you but if
you want to try some
that will answer your
question so he said
OK to try it
so I went home and
packed up 2 250 tabs
of Owsley's Sunshine
in a red manila envelope
Chinese gift 3x5 copy envelope
and took it over and handed
it to him. He said
Thank you very much.

I kept anticipating her going
to take me aside & tell
me but completely weeks
passed & John kept
wiping me. Then one
night John & I
asked her if he took
~~me~~ tried what we bought
him and he said
yes he had and I said
well well what happened
what was it like
and he went "Baroon
baroon baroon" and
then "clang clang clang"
referring to a noise
Ohusan was making
in the kitchen - making
w/ body language & hands
steering wheel driver
pacing on pot - saying
"Ohusan in kitchen"

I didn't believe him but John
did - completely. He - I
think it would have been
within character for him to have
told about it.
