

ZEN CENTER

Jan. 16th 1967

Dear Elise

Thank you so much for your telephone call and the letter.

I wrote to Michiko at the end of last December to encourage her to decide her plan about coming to America. And again as soon as I had the telephone call from John I wrote to her. I know that she is in a kind of difficult situation with her brothers, mother, and her grand mother but I expect her to give me the exact plan quite soon. So please wait for one or two weeks.

Thank you very much for sending us more contribution. We are all very grateful for it. The project is going pretty well paid another 5 thousand for the new project of getting ^{the} that spring place instead of Horse Pasture. As we are in the position now, we will invite Prof Yokoi, who was my teacher's disciple from Komazawa or Koshu Uchiyama from the Antaiji Kyoto for the coming Session at Tassajara.

P.T.O.

In the end of Feb. I am planning to visit your place. There is no need for you to plan anything. As I want just see you and your suggestions about the future plan and way to extend our way in west, as I feel a great responsibility for future students of Gen in America.

With Gassho,

Sunryu Suzuki
