

CSI Charlotte Selver

~~Summary~~

Memories from the beginning of Tass are very impressive to me. I do not see SR here - I saw him more for 50 years and it was relatively rare.

The 1st time was at lunch you arranged for a person who probably found for TC. He had an apt in SR, and you & SR was my neighbor - yes Peter Balle SR was only my distant neighbor - very astoundingly quite friendly. What impressed me was your joke - They had after Catherine cookies and I was reading - do you feel the ground under your feet - another one - "where's beating?"

what always struck me was his simplicity, modesty and friendliness -

I visited Marie once at sea and I said to her I wonder how SR feels about me and she said he said I was the

meeting an old friend
he never said, to me
I couldn't really hear what he
said - his voice was not too good
and my mind wasn't in the
not too good and my
ears were not too good
but there was something
in his statements that
was very clear - simple
with complicated meaning
just the person himself - not
something I can't - he
addressed you directly - everybody

Yes - he came to my classes
well, we had one benefit
for Tassara - Dr. Peter
made a big effort -
he made a film and w/
Buddha on it and gave it
past out on St. and that
was a huge event - I had
150 people there there, Dr.
Spent there that gave a talk
and I gave a workshop for 2
days and he was one
of the St. He tapped my
arm and I lifted
my arm and then

It came back again
and then discussed
and SR was so into it
while he was talking he
left his arm like
in workshop and that
when he spoke of his
experience in Denmark
go up and that
was beginning of our friendship
and when he spoke he gave us
just delight
we invited SR to lunch
one at beach
and lunch on our hill
and at beach several people
donated something for lunch
and hardly was he at beach
that he was sitting on big
rock like a block

between little and big
beach

Some people brought meat
I was a little worried but sr
ate the meat like everyone
else. What a funny people
made about not being
vegans - He simply
filled into the occasion of
that was very important to me.

There was a June DB made
us to Japan and we saw
a lot of beaut beaut places
there & when we came out
sr was very good in hosp
and we projected for him that
we had seen - slide show
in hosp and to my greatest
amazement we found
we'd never seen any of the
jap areas where we were.

There was a painter of ours
here that worked for us as
ever in all directions over
a wooden structure - In his
native country he was prob-
ably a great painter. I never
saw him do what he did here
that was the way he painted
and was the best I saw
the best I saw of SR

He said Chas, I cannot
breathe, so deeply anymore.
But that's alright.

So I do not say I cannot sell
anymore but I can't breathe

Lee How did he respond to that?
He was amazed he was

so there for it - at though
he was so sick - you know
Chas is also not long
anymore.

Lee I have a memory of you
going to eat w/ Dick and
then going to bathroom
and not closing door.

That was the 1st June
and there he was as if
I wondered why didn't he close the door.

Blind - maybe just absentminded

Lee - I remember you told him in a
class as an important teaching

Physical - It was all simple
when he climbed the hole

He was like a healthy animal
or a child going to its favorite place
He gave a statement about our work;

get from Lee

If you want to say about, ^{something}
It ends w/ you must justify it.

That's as close to you as could be.

when he was happy and he
laughed & saw him clap his
hands & ~~the~~ a young child
and he was so delighted
& that he absolutely gave his love
to Zen and his wife and
he never gave her a present
He was so ~~that~~ she said it
would have ~~been~~ ~~if~~

(I say he gave her peace
& thank books)

It was a huge fortune
to the moon.

I say about Jeanne Campbell
she came to me - & advised
her not to talk so much - so
one day she came to me
very excited and said (her little
bit began) somebody and for
I was ~~dis~~ ~~not~~ ~~to~~ ~~talk~~ ~~at~~ ~~all~~ ~~what~~
do you think of that? I
was

I went to see the painting
of Fitzgerald - the great ~~French~~
painter and ~~the~~ ~~great~~ ~~French~~
painter and ~~the~~ ~~great~~ ~~French~~

learned and he said yes -
did part of her.

Paul Repp had a friendship w/ Paul
that was a friend he was always
in my course
He had a little notebook in
his pocket

DC told me she came to
Ar and said, "I wish
to feel as though I have a whole
bunch of friends in my belly
and my mind" and look very
carefully at these ducks.
It was shortly after she counted
ducks.

Lee ~~remember~~ that she was
distracted describing the papers
and ~~had~~ have a good look and
found.

Such short sentences, seemed so abrupt
but so packed with meaning?

Physical

He was like everybody
there was nothing special
I always forgot to say
up on the street
didn't know I would
be there by him - He
didn't stand out in any way.

the pauses were very important
that he didn't immediately answer
or try to explain.

As a ~~person~~ physical description - modest

I didn't have feeling that
he concentrated himself
He was content

I think that the rest of people who
were with him
He was open to them - he didn't
have to concentrate - they missed
his reactions. He was all together
there for what he did.
